AI APP USER MANUAL

AUTHOR-SAMEEHA SIDDIQUI

ABOUT ME

My name is Sameeha Siddiqui and I'm 14 years old. I'm from India and currently living in Sharjah, UAE. I'm an ambitious student studying in grade 9 who is always looking for ways to expand my knowledge and skills. My passions include reading, learning new skills such as IoT, and helping those in need. I strive to be a responsible and orderly person who does their best to give back to their community. Additionally, I'm committed to using the skills I acquire through my studies and hobbies to help others and make a positive impact on society.

About App

ACKNOWLEDGMENTS

I would like to take this opportunity to express my appreciation for the opportunity to be part of the Python Internship Program. I am thrilled to have this chance to learn and gain valuable experience in the field of programming. I am excited to explore the potential of Python. It was enthusiastic about uncovering the possibilities of Python and pushing myself with the program's challenges. I'd like to give a special thank you to my mentor for the Python Internship Program. Their guidance and support has been invaluable in my growth and development. I'm thankful for their trust and belief in me, and for all they've done to help me make the most of this program.

My Objective

My objective in creating a quiz application in Python is to provide a fun and interactive way for people to test their knowledge and learn new information. With this application, users can answer questions on various topics, and the application will provide them with feedback on their performance. I want to create an engaging and educational tool that can be used for entertainment, learning, and socialization purposes. Additionally, I aim to showcase my programming skills and knowledge of Python by creating a fully functional application that is user-friendly and enjoyable to use.

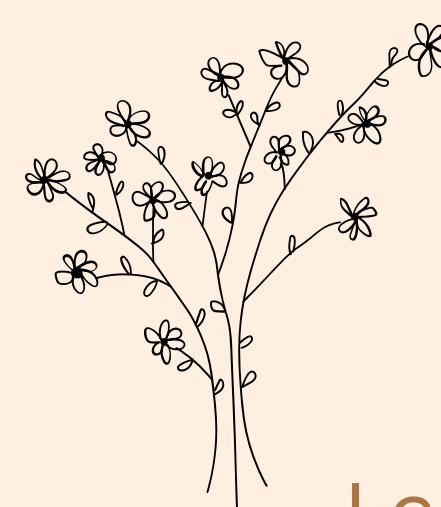

How is my quiz application project beneficial to people in society

My quiz application project has several potential benefits to people in society. Firstly, it provides an engaging and interactive way for individuals to test their knowledge and learn new information on various topics. This can be especially beneficial for students, educators, and anyone seeking to improve their understanding of different subjects. Secondly, the quiz application can help to promote cognitive development, including memory, problem-solving, critical thinking, and decision-making skills, by providing mental exercises that challenge and stimulate the brain. Thirdly, the quiz application can be used for entertainment and socialization, promoting a sense of community and connectedness among individuals, especially during these times when physical distancing is required.

Overall, my quiz application project has the potential to benefit individuals in various ways, including education, cognitive development, socialization, and philanthropy

why did I choose this project,

I chose this project because I am interested in developing educational tools and applications that can benefit society. I believe that a quiz application is an effective way to help people test their knowledge and learn new information on various topics.

Additionally, I wanted to improve my programming skills, specifically in Python, and creating a quiz application would allow me to do so. I was excited to learn new programming techniques and apply them in a practical project.

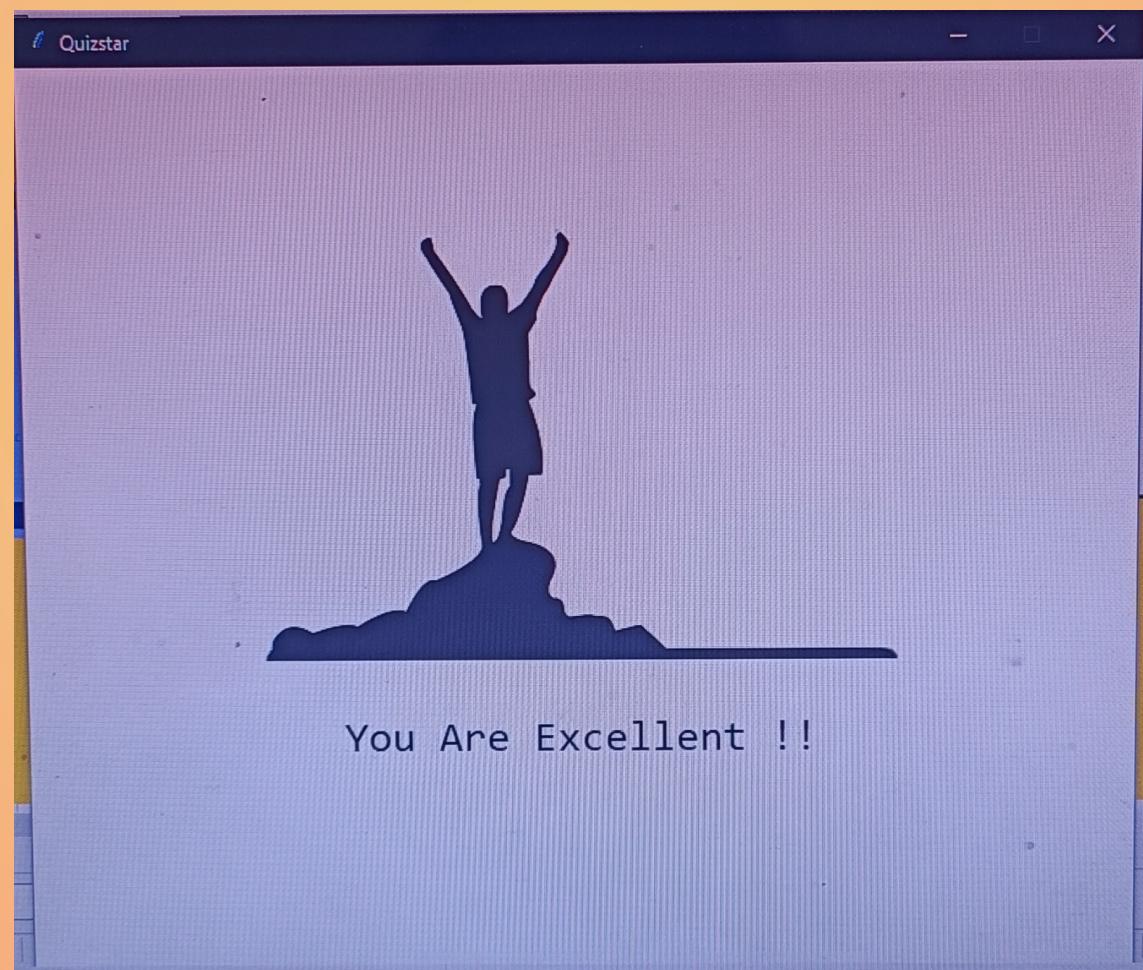

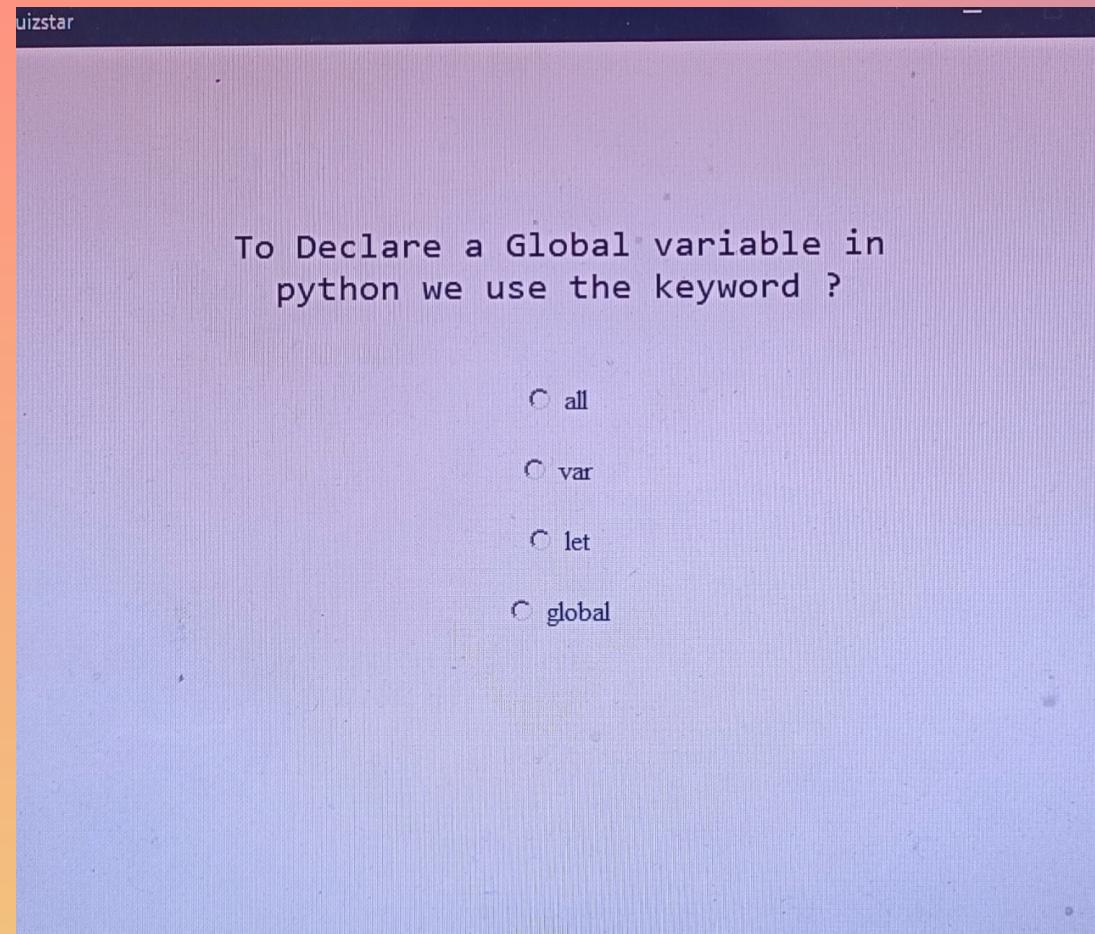

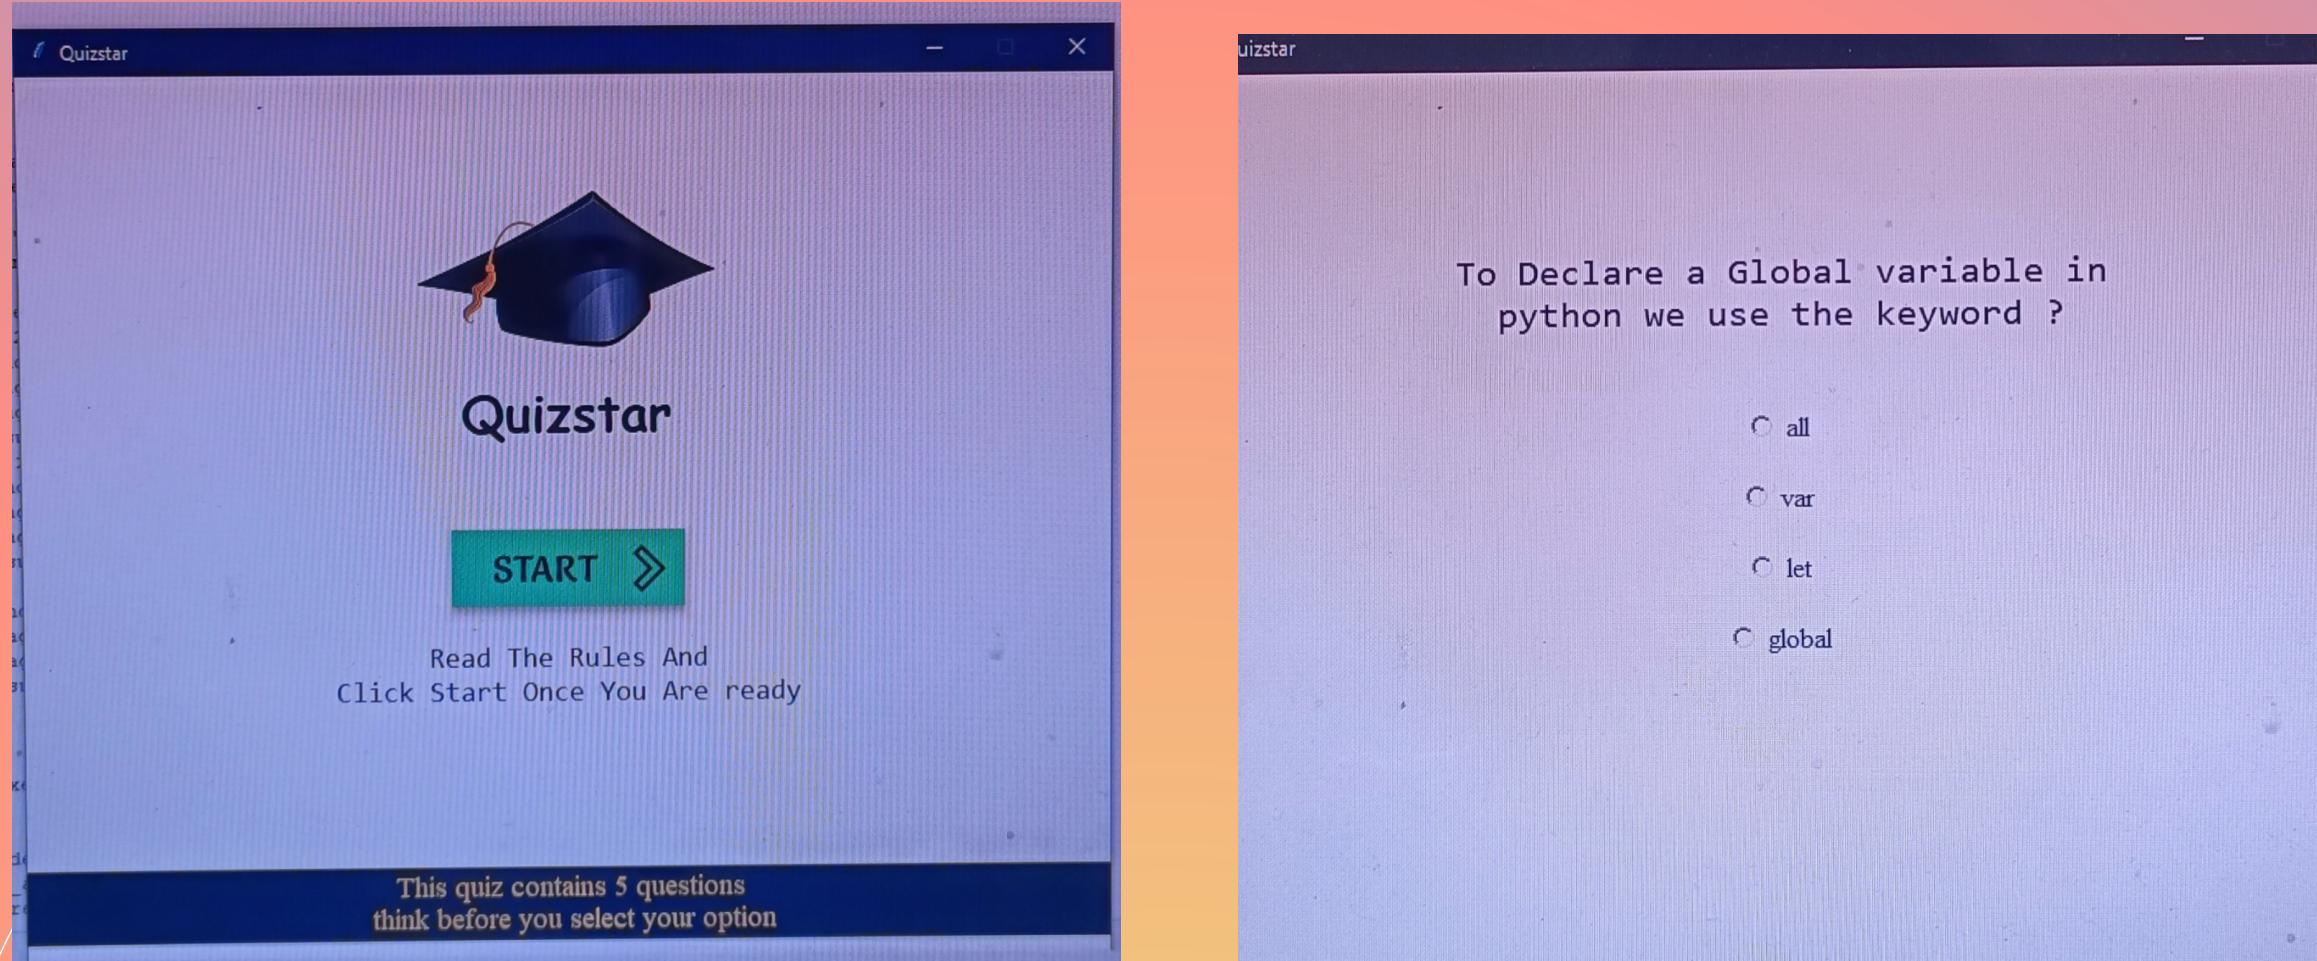

Moreover, I wanted to create something that could be used for entertainment and socialization, especially during times when physical distancing is required. A quiz application can provide a fun way for individuals to challenge themselves and others on their knowledge, thus promoting socialization and community building.

Finally, I believe that this project has the potential to make a positive impact on society by promoting education, cognitive development, socialization, and philanthropy through fundraising. Overall, I am passionate about this project and excited to see how it can benefit individuals and society as a whole.

ABOUT MY INTERNSHIP JOURNEY WITH CLEVERED

My internship journey with Clevered was an incredibly valuable learning experience. The mentors there were incredibly helpful and knowledgeable, providing me with the opportunity to develop my coding skills in Python. I quickly grew familiar with the syntax and principles of coding, working on projects that allowed me to put my newfound knowledge into practice. With every challenge I encountered during the internship, I improved my problem-solving skills, which prepared me for future studies and projects. Overall, this internship was a valuable part of my journey, and I am deeply grateful for the opportunity.

HOW DO I USE THE APP

This quiz app is easy to use! Just read the rules click start and you'll be taken through five questions. At the end, you'll get your feedback to review. With this app, you can easily test your knowledge or have fun with friends and family. Give it a try today!
